

How to get connected

SERVICE PROVIDED BY LEISURE PARK INTERNET SOLUTIONS

1 Getting connected

1. Open your Settings on the device you would like to get connected
2. Select the "Wi-Fi" option from the list
3. Look for the Network relating to the rental unit you are staying in
e.g. **"Pitch *** - Guest WiFi"**
4. Select the Wi-Fi network and enter the password provided by the park
5. Follow the prompts on your browser to register for the service

2 Not connected?

1. Open your settings and ensure your Wi-Fi network is displaying "Connected"
2. Open your native web browser (Safari, Chrome, Firefox or Edge)
3. Try to visit "www.neverssl.com"

3 Still not connecting?

Is our equipment plugged in and powered correctly?

1. Locate the Router
2. Ensure all cables are pushed in flush
3. Follow the cable back to the PSU
4. Make sure the Ethernet is plugged into PoE Port
5. Still not working? Contact us
